</tbody>
</table>
**Standard and Custom Window Sizes**

**Note:**

100 Series Awning Windows are available in standard sizes (see standard size charts, page 6). Replacement parts for some standard windows can be ordered using the numbers listed in this catalog. Many replacement parts for standard windows are made to order. These items are ordered using the Product ID found on the identification label and a description of the part needed. See Service Guide 9051877.

100 Series Awning Windows are also available in custom sizes in 1/8” increments between the smallest and the largest standard sizes. Most replacement parts for custom-sized windows are made to order and can be ordered with the Product ID found on the identification label and a description of the part needed. See Service Guide 9051877.

---

**100 Series Product Label**

**Note:**

Every 100 Series Awning Window will have an identification label or glass etching containing a unique Product ID. The Product ID on 100 Series Awning Windows will be located at the top of the window frame or etched into the glass. See Service Guide 9051877. The Product ID may be up to 14 digits long (excluding hyphens), depending on the age of the unit. Replacement parts will also get their own unique Product ID. When ordering replacement parts, providing the Product ID ensures that replacement parts match the specifications.
### Unit Size Chart - Standard Windows

**Note:**
Unit Dimension refers to overall outside-to-outside frame. Unobstructed Glass refers to visible glass dimensions.

#### Awning - Single

**Note:**
Replacement glazing beads are made to order.

*To order, state:*
1. Description of part (Glazing Bead)
2. Product ID (from product label, see Service Guide 9051877)
3. Manufactured date
**Insect Screen**

**Insect Screen Assembly**

**Note:**
Replacement screens are made to order. Screens manufactured after October 24, 2016 will use charcoal mesh as "standard". Prior to this date silver mesh was used as "standard".

Metal wing-blade design used on all screens beginning in February 2019. All current/replacement screens use a wing blade fastener. Standard screens manufactured prior to 2019 used the vintage fastener. Vintage fasteners are no longer an option.

See Dealer Bulletin 60-16 and 10-19 for more details.

**To order, state:**
1. Generic order #9000405
2. Product ID (from product label, see Service Guide 9051877)

Service Replacement Only Parts

Note:
This section is specifically designed for parts that should only be ordered if a Territory Service Manager/Service Provider Company has requested them to be ordered or if the customer agrees to also pay for a non-warranty repair/replace service job (subject to availability) for these parts to be installed. We do not recommend anyone other than a trained AW employee or Service Provider install these parts due to the complexity of installation, modifications required for installation and/or requirement of special tools.
